

HYDROSPHERE HWC SERIES STRING WOUND CARTRIDGES

Hydrosphere HWC Series String Wound Cartridges are a cost effective solution for the reduction of sand, silt, rust, sedimentary particulates, and scale particles. Made from 100% Polypropylene cord, HWC Series String Wound Cartridges can withstand temperatures of up to 165°F (73.9°C).

HYDROSPHERE HWC SERIES STRING WOUND CARTRIDGES

Hydrosphere HWC Series String Wound Cartridges are suitable for a variety of applications including residential, commercial, industrial, and agricultural applications using both municipal and well water. Different wound patterns for different micron ratings ensure that you are getting the right product for the right application.
